

*\* Please check this space again in January 2022 when more elaborated information and syllabi will be provided. The launch date of the education program will be announced by March/April and start June 2022 at the earliest.*

## **INDIAN MUSIC TRANSFORMATION GROUP**

Berlin School of Sound is happy to introduce this group ensemble led by renowned composer and musician Ramesh Vinayakam who will give weekly webinars on performing Karnatic music for instrumentalists (and vocalists\*) using the breakthrough Gamaka Box notation system. He will also occasionally invite guests to demonstrate instrumental techniques associated with the transcriptions. Please see: [www.musictemple.in](http://www.musictemple.in) to view all the achievements his method has accomplished and recommendations from renowned performers of South Indian classical music. This includes amazing transformations of the playing ability of notable performers of Western classical music such as from the members of the Kammerensemble Neue Musik who performed an entire concert of Karnatic music at the Radialsystem venue in Berlin, Germany.

Ramesh looks forward to helping you learn how to play classical Indian music through his unique and effective notation system!
